

Unitec Institute of Technology, NEW ZEALAND

Bachelor of Applied Technology (Automotive Engineering)

Unitec Institute of Technology is the largest institute of technology in Auckland, New Zealand with over 16,000 students in 2012.

The main campus is situated in Mt Albert, Auckland, while a secondary campus is situated in Henderson, Waitakere, Auckland, and a third campus in Albany, North Shore, Auckland which opened in August 2011.

Unitec offers degree programs in arts, business, and technical subjects at the bachelors, masters and doctoral level. Applied technology (Trade) training is offered at certificate, diploma and degree level.

Unitec is a member of the International Association of Universities. It has been a leader in applied tertiary education for 30 years. From small beginnings they have evolved into a dynamic and innovative institution that is redefining what an Institute of Technology should be.

Course Outline Course Duration

- Automotive Electrical & Electronics
- Body & Auxiliary Systems
- Fuels and Fuel Systems
- Innovative uses of Technology
- Power Transmission
- Suspension and Controls
- Sustainable Technologies

THREE years course (originally), while Despark's students require only **TWO** years to complete the course
