

Field trip learning @ KLIMS 2013

Students love everything about automotive! In 2013, Despark organised a learning trip to KL International Motor Show for students to gain knowledge. All the car lovers excited to see the supercars on the stage and admired them in real close.

Besides that, there were many futuristic concept cars and classic American cars like Ford Mustang, Dodge Challenger, Dodge Charger, Chevrolet Corvette, and Chevrolet Camaro and so on. We really enjoy to see such beautiful cars in person. Hope you enjoy our photos too.
