

# Graduation Ceremony : Time to be Proud

Our convocations are held once to twice a year, catering for two batches of graduates at a time. This is usually a graduating batch's last opportunity to come together as a group before dispersing across the country (and even the world) as professional Engineer and Technician.

We are so proud of our graduates! Along with the graduation ceremony, we honor the family members and friends whose supported the students. Thank you for entrusting them to us these years. Let's share the joyful moment.
