

Industry Testimonials

“Graduates from Despark have always been of good quality so we would definitely be keen to meet the graduates for our available positions.”

Jeslin Lim, Divisional Manager HR Cycle & Carriage Singapore

“Despark College student’s is really good in theoretical and practical. We do hired students from other institutes who lack practical knowledge. At the end, I still need to spend effort and time on provide practical training to them. In my opinion, students must be able to achieve both practical and theory if you want to be involved in automotive industry. Besides that, Despark’s student well performed and good discipline too.”

Koh Han Seong, Seong Auto Service and Tyres Centre

” I came across to work with Despark’s graduate student in year 2011, the integrity, discipline and attitude of the student was making a remarkable performance and outcome, from mechanics to junior foreman in short period. Despark have a good training and monitoring modular in term of screen their student as well as the quality of their graduates.”

Gordon Tan, Suzuki Service Batu Caves

“Despark has been producing high quality students. We found that they are better in terms of technical knowledge as well as good attitude. Therefore I believe Despark will enhance and improve the automotive industry standard.”

Gary Wong, Operation Manager, Tyrezone

“We have known Despark since 2005 and it had produced very good students for our service centre who shown superior technical knowledge and of good character. Many of them are still with us now working as supervisor and manager. We have more capacity to invite graduate students who like to work in a stable environment such as ours who is an authorised 3 S Mazda Centre and also a 2S Hyundai Centre.”

YS Chong, Operation Director of Mazda & Hyundai Service
