

Campus Visit from SATC

Recently, a teacher, Ms Sheila from SATC (Shared Academic Training Centre) brought 15 students to visit Despark college. The main purpose of this visitation was to give prospective students opportunity to engage with automotive and aircraft industries.

On our tour, students walk through our classrooms, labs, library and etc. Despark's trainer brief the details of DAET and DAMT courses, career goals and the advance technologies nowadays. Guess the students and teachers from SATC gained a better understanding of our academic and career. Hope to see you soon students !
