

Shell Eco Marathon

Shell Eco-Marathon challenges student teams from around the world to design, build and test ultra energy-efficient vehicles.

Despark encouraged students to take part in this event as it is students take initiative to participate in this event as it can benefit students not only from practical knowledge but their life experience as well.

With annual events first in the Americas, then Europe followed by Asia, the winners are the teams that go the furthest using the least amount of energy. The events spark debate about the future of mobility and inspire young engineers to push the boundaries of fuel efficiency.
