## PROGRAMMES OFFERED

**Malaysian Qualifications Agency (MQA)**  
MQA is a statutory body in Malaysia set up under the Malaysian Qualifications Act 2007 to accredit academic programs provided by educational institutions providing post secondary or higher education and facilitate the accreditation and articulation of qualifications.

**Jabatan Pembangunan Kemahiran (JPK)**  
JPK was established under the Ministry of Human Resources on 2nd May 1989, for the purpose of promoting and coordinating skills training strategy and programme in keeping touch with Malaysia's technology and economic development needs.

**City & Guilds (C&G)**  
City and Guilds of London Institute is an independent organization operating under Royal Charter. City and Guilds offers a range of qualifications (known as programmes) in vocational and general subjects.

**Business and Technology Education Council (BTEC)**  
BTECs are now awarded by the Edexcel exam board and are taken in more than 100 countries at all levels, from pre-GCSE to Degree equivalent. They are vocational and work-related courses, designed to accommodate the needs of employers and allow students to progress to further and higher education.

## PAST STUDENTS TESTIMONIALS

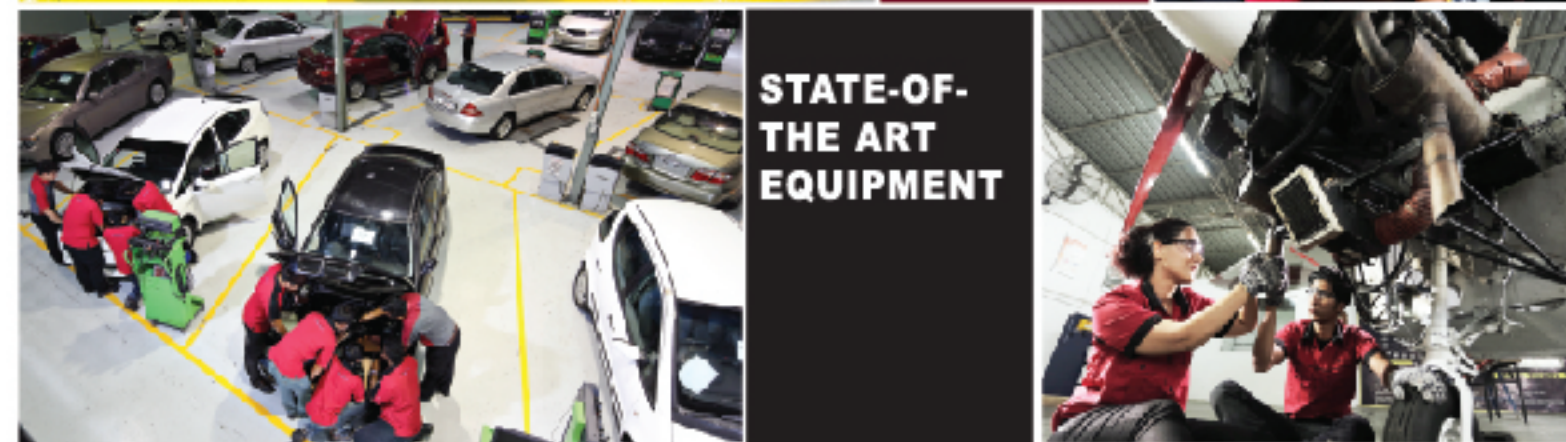

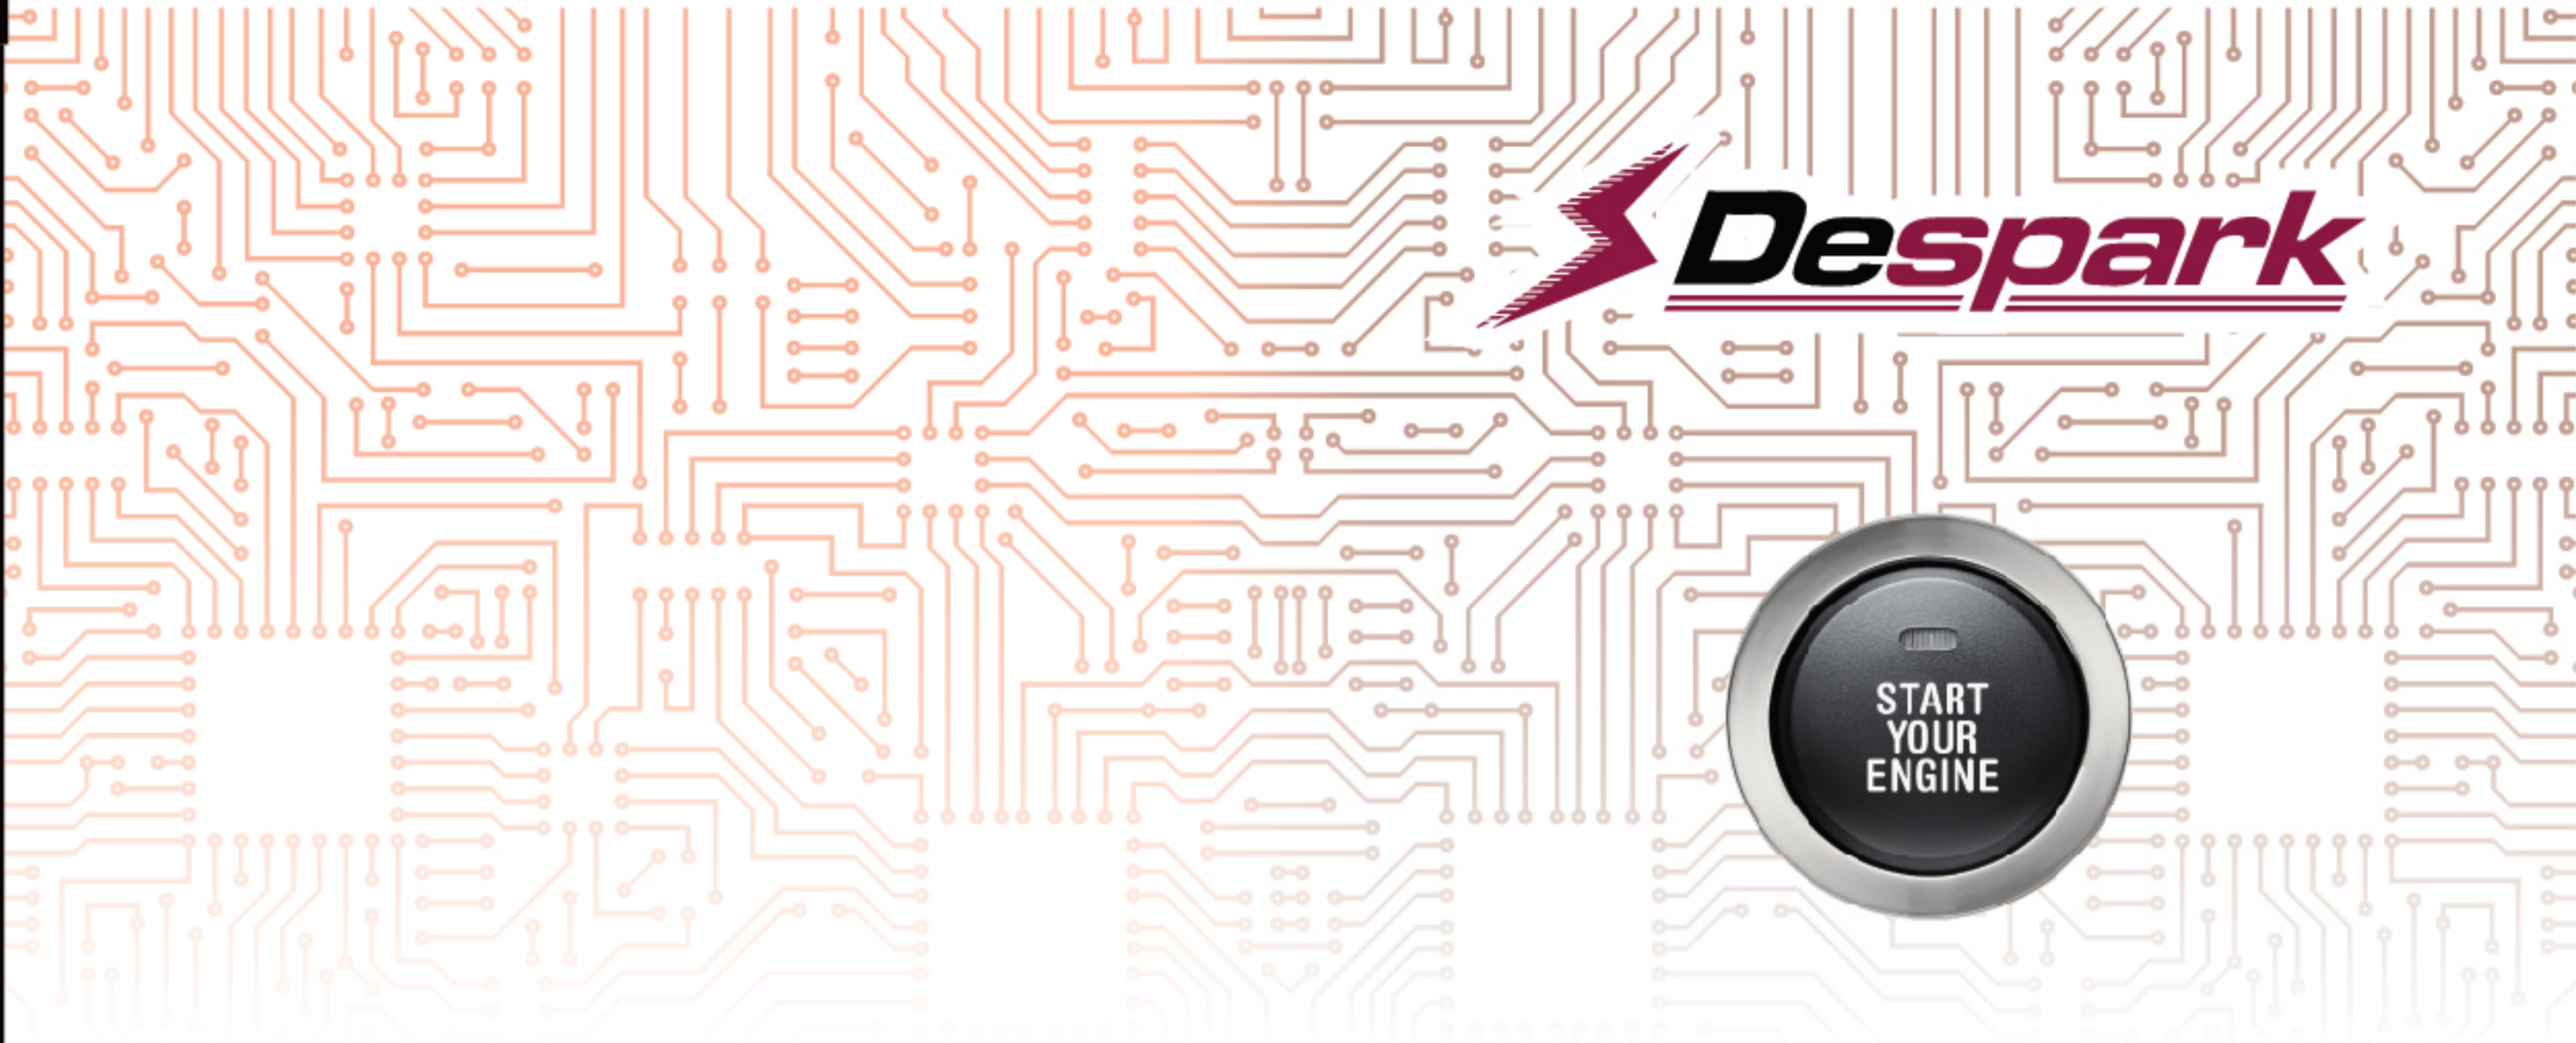

**GOH KIAN SEN**  
Fresh Grads from Unitec  
I am fresh graduates from Unitec, New Zealand. I have been offered by BMW and Audi upon my graduation. I would say that Despark is one of the best automotive colleges among the others. I have absolutely no regrets and proud to graduate from Despark. The lecturers were professional and expert in this related field. The theory program that offered in Despark's Advanced Diploma courses prepared me well in my Degree courses. Despark is an institution which offers great facilities and advanced equipment. I highly encourage students who loved automotive to choose Despark. Despark also provided international job opportunities to students. Currently, I received job offers from Audi Company in Singapore and BMW Company in Johor.

**WONG CHEE RONG**  
Mitsubishi Service Advisor  
On top of the comprehensive automotive theory that was so carefully thought-out and instilled in me in the classroom, the hands-on experience of practical training that Despark emphasizes from the very beginning, was especially beneficial. I thank to Despark that I have gained useful knowledge of solving difficult situations that may arise and build a strong foundation for the students as well.

**SPARK YOUR CAREER**

**AUTOMOTIVE TECHNOLOGY FOR YOUR FUTURE**

As of today, the number of vehicle on the road is increasing tremendously along with the technology being fitted in the vehicles. The demands for skillful and qualified technicians are much higher than the supply that the country is able to generate. In Malaysia, statistics shows that approximately 500,000 new cars are registered on the road every year. The significant numbers provide huge opportunities for technicians and engineers in the automotive industry.
